

5 Things You MUST Do to Hit #1 Amazon Best Seller

WITH YOUR BUSINESS-RELATED FICTION BOOK

1

Pick relevant, but not-so-crazy-competitive categories.

2

“Launch” your book on a Monday. (But have the files up the week before to make sure things are lookin' right).

3

Launch your book at \$0.99 (so it's a no-brainer for friends to help you) for only 2 or 3 days (to create urgency).

4

Pre-Market for at least a couple weeks before your launch date. Rome wasn't built in a day. ;)

5

Write a great book. Duh! :) Don't cut corners and lose credibility just to get the title of best seller.
